

iland disaster recovery services with Veeam

Cloud-based disaster recovery has become an optimal option for almost any enterprise that wants to protect its digital assets. But every cloud is not what it seems. Expertise and experience are key to a successful DR plan.

What is Disaster Recovery services and Veeam?

iland Disaster Recovery integrates with Veeam to provide cloud-based Disaster-Recovery-as-a-Service managed by iland. It allows you to keep an up-to-date copy of your virtualized applications in iland's cloud, recovering them when you need to.

iland DR service with Veeam enables organizations to utilize iland's considerable experience and expertise to implement a cloud-based disaster recovery plan that reduces or eliminates the errors typically related to traditional disaster recovery deployment.

Why choose DR services with Veeam? employ the right experience and expertise

iland is recognized by analysts as a trusted leader in cloud-based disaster recovery.

iland DR services with Veeam is a managed disaster recovery plan that ensures seamless end-user access during a disaster event.

iland provides professional services that lead you through cloud-based disaster recovery planning and advise you on the optimal disaster recovery plan for your organization.

We ensure successful execution of your failover and recovery with our unique Resource Allocation analysis and Recovery Action Plan (RAP). Your RAP details everything you need to ensure an efficient recovery, ranging from defining who declares a disaster, to the priority in which workloads are recovered.

iland CCS with Veeam at a glance

- ✓ Market leading disaster recovery experience and expertise
- ✓ Pre-built managed recovery infrastructure
- ✓ Network managed and configured for you
- ✓ Support for legacy systems
- ✓ Familiar VMware operating environment

Why choose iland?

- ▶ 18+ years supporting customers and their critical workloads
- ▶ 95%+ customer satisfaction rating for iland Cloud Support – with representatives at each cloud location
- ▶ 7 global data centers in NA and EMEA, with growth plans in EMEA & APAC
- ▶ 3 VMware Partner network awards - Americas & Global
- ▶ Consultative customer relationships with the flexibility to meet your business needs

“One of the biggest strengths of iland’s continuity cloud offering is its immense flexibility across recovery objectives, data transport technologies, supported platforms, and even the management and support. Yet somehow, it manages to keep its solution from becoming overly complex and overly customized. In fact, its pricing transparency, service levels, and contract terms received very high marks from customers.”

“The Forrester Wave™: Disaster-Recovery-As-A-Service Providers, Q1 2014,” Forrester Research, Inc., January 17, 2014.

simplify disaster recovery

You don't have to worry about configuring and managing your Disaster Recovery Plan – iland does it for you. Replicate to an iland-managed, enterprise-class infrastructure that is ready to use and powered by highly reputable VMware technology. You can be confident that the performance at your recovery site will equal production-level.

iland also manages and preconfigures network appliances so that during a failover event, users can access data in the way they are used to accessing it.

reduce disaster recovery costs

Select only the machines you want to replicate and reduce the extra costs associated with replicating everything. Unlike traditional disaster recovery, iland DR service with Veeam offers granular replication, allowing you to select only the machines you want to protect.

test your DR plan

The only surefire way to ensure your disaster recovery plan will work in the event of a disaster is to test it. iland DR service with Veeam includes a free annual disaster recovery test to validate your plan and ensure its success during a real disaster.

don't forget your legacy systems

We can accommodate and co-locate legacy and physical systems that can be seamlessly incorporated into your disaster recovery plan.

and, the rest of the reasons

There are a host of other reasons to choose iland – and we'd love to highlight just a few more:

- Be confident that you are supported by a 100% infrastructure availability SLA
- Our US locations hold SSAE 16 certification. Our EMEA locations hold ISO 9001/27001 certifications
- Data is encrypted as it travels across the wire using AES-256 encryption

so, what's next?

Reach out to iland to learn more about our cloud-based disaster recovery offerings, and how they can help protect your business.
