

## iland compliance

*For many organizations, compliance remains a barrier to cloud adoption. iland's cloud compliance offering enables IT to confidently move forward with cloud IaaS and DRaaS initiatives.*

### what is iland cloud compliance?

The benefits of cloud computing are broad and many – and yet many cloud projects fail or never get up and running because of compliance risks. To help customers fully leverage the agility of cloud computing while remaining compliant, iland has matched our market-leading cloud platform, services, and management console with specific compliance offerings for a wide range of industry regulations. The result is a unique approach to compliance in the cloud that streamlines the process for our customers.

### your partner in cloud compliance

iland's dedication to customers' compliance needs goes beyond best of breed security features and reporting and extends into professional services. Our team of certified compliance professionals consults with customers, providing assistance on interpreting reports and using report data to meet compliance requirements. Expert compliance consulting is available with a straight-forward and predictable monthly pricing plan.

#### Our certified compliance professionals will:

- answer your questions about report sections and findings
- provide supporting documentation so you know exactly how the report relates to industry regulations
- assist you in answering auditors' questions on report findings
- based on your business and industry, interpret and confirm the classifications our scanning systems return
- assist in aligning you with industry regulation controls utilizing the ITIL 2011 framework
- provide model contract clauses when required

**Need extra help? Tack these on as you need them, and be billed hourly in a clear, predictable way:**

- on-location audit assistance for cloud services
- extra consulting hours with our team

## broad industry compliance

iland’s security features, reporting capabilities and professional services can be used to monitor and achieve compliance to a broad range of regulations:

- ✓ HIPAA
- ✓ SOC 2
- ✓ CJIS
- ✓ PCI DSS v3
- ✓ FISMA
- ✓ NIST
- ✓ ISO 27001
- ✓ Penetration Testing
- ✓ SAM Registration
- ✓ Privacy Shield
- ✓ CSA CAIQ

You’re able to download reports showing both iland’s and the customer’s compliance to the above regulations in a self-service manner through the iland Secure Cloud Console<sup>SM</sup> – which is invaluable when it comes to audit time.

## iland’s compliance & security posture

The iland cloud platform is compliant to HIPAA, SOC2, ISO 27001, Privacy Shield, FEDRAMP, and others. This gives customers the assurance that their cloud services provider is supporting them every step of the way towards achieving and maintaining cloud compliance.

Additionally, iland has achieved the Cloud Security Alliance STAR Gold Certification which is a rigorous third-party independent security assessment of cloud service providers based on the requirements of the ISO 27001. This certification validates the active security and risk programs in place at iland that help identify, mitigate and monitor information security risk.

## our dedicated team

iland’s compliance team is committed to staying up-to-date with training and certifications, including CHP (Certified HIPAA Professional) and CSCS (Certified Security Compliance Specialist). We attend security and privacy training so you don’t have to. Go ahead – rely on us.

## no hidden fees

iland offers a straight-forward monthly pricing plan that won’t sneak up on you. Customers receive a set amount of consulting time from our compliance team already built into the offering. But rest assured - additional consulting hours are available when you need them. With clarity in our agreements and you in control, each bill will be predictable.
