

iland at a Glance

iland delivers proven enterprise cloud services so you can scale your business with speed and confidence.

iland Cloud Platform

DRaaS

Replicate application and data to the iland cloud and fail over operations with near-zero recovery times.

Object Storage

Seamlessly extend your on-premises storage to the cloud and efficiently secure, manage, and retain your data for the long term.

Secure Cloud Hosting

VMware-native cloud infrastructure platform designed with built-in, advanced security to address compliance.

Cloud Backup

Easy, secure cloud backup integrated with Veeam Cloud Connect technology.

Office 365 Backup

Securely back up and protect Microsoft Office 365.

iland Differentiators

- Included, 24x7, in-region support from certified technicians via phone, email, or chat
- Secure and compliant cloud infrastructure
- Top tier technology partners - VMware, Cisco, Nimble Storage, Veeam, TrendMicro
- Resource-based pricing model to maximize cost efficiencies
- Pre-built 100% SLA infrastructure
- Stringent compliance and security posture - HIPAA, SOC2, ISO 27001, Privacy Shield, FISMA-MODERATE, GDPR certifications, and others
- Data centers in North America, Europe, Asia, and Australia
